Dear Family,

Today our class began Chapter 1. We will learn about adding and subtracting numbers through 20. Let's do the activity below together so I can review the skills I will need in order to understand the math in this chapter. Then you can read some of the new vocabulary I will learn in Chapter 1.

Love, _____

Naming Numbers

Have your child make designs by gluing 6 paper strips on sheets of paper. Each design should have a different number of red and blue paper strips. Ask your child to tell you how many red strips and how many blue strips can make 6 for each design.
